

The Sydney Morning Herald.

No. 10,011.—VOL. LXI.

NOTICES of BIRTHS and DEATHS cannot be inserted in this Journal unless endorsed with the name and address of the persons by whom they are sent.

NOTICES of MARRIAGES cannot be inserted unless certified as correct by the officiating Minister or Registrar.

* * * The above rule is rendered necessary in consequence of false and malicious notices having been sent for publication for the purpose of annoying respectable persons.

MARRIAGES

On the 11th instant, at St. Michael's Church, Wallington, by the Rev. T. C. Ewing, assisted by the Rev. Mr. Jones, the Rev. Mr. D. J. H. and Miss Mary, wife daughter of J. H. & R. Rosebery, Esq., of Oakhampton, West Malling. At about HALF THE RAILWAY HAYES.

Omnibus in attendance at Parramatta to convey passengers to and from the steamer and the Park or Parramatta North. Fare, 3d.

PARRAMATTA AND RIVER STEAMERS.

CHEAPEST EXCURSIONS.

FIFTEEN MILES FOR ONE SHILLING.

Children, saloon return 6d only.

From King-street, 7, 9, 11, 1, 3, 6. To Ryde, 6. 15.

From Parramatta, 6, 8, 9, 11, 1, 3, 6.

Call for tickets, 10, 12, 14, 16, 18, 20, 22.

At about HALF THE RAILWAY HAYES.

Omnibus in attendance at Parramatta to convey passengers to and from the steamer and the Park or Parramatta North. Fare, 3d.

DEATHS

On the 16th instant, at her residence, Mount Pleasant, Liverpool, Mrs. J. D. Jones, widow of John D. Jones, aged 68 years. Much respected by all who knew her.

At about HALF THE RAILWAY HAYES.

Omnibus in attendance at Parramatta to convey passengers to and from the steamer and the Park or Parramatta North. Fare, 3d.

HUNTER'S HILL AND RYDE.

PREMIER, from King-street, TO NIGHT, after the opera.

MARBLE BEACH STEAMER, THIS DAY, leaves

Woolloomooloo, 10, 20, 30.

Manly Beach, 8, 15, 12, 18.

Fare—is cash way; children, 6d.

THOMAS HAMILTON.

STEAM TO THE RICHMOND RIVER, via NEWCASTLE.—The WAIMEA, hourly expected, will leave again in 48 hours after arrival. Cargo received at Commercial Wharf, for all parts of the river.

TEAM TO ROBERT TOWN, calling at EDEN, New South Wales, via GIBSON'S WHARF, on MONDAY, 27th instant, at 4 p.m., for SAN FRANCISCO, AUCKLAND, and HONOLULU (Sandwich Islands).

Superior accommodation for saloon, second cabin, and intermediate passengers, who can only upon being provided with a cabin, be accommodated in a steerage-cabin. Bedding, etc., is not provided in the second cabin or intermediate. Wines and spirits are extra. An experienced surgeon accompanies the vessel.

Apply JOSEPH WARD and CO., 3, Bridge-street.

FIRST VESSEL FOR HONGKONG.

SPARTAN will be dispatched in a few days.

For light freight or passage apply to LAIDLEY, IRELAND, and CO., Lloyd's-chambers.

FOR BATAVIA.—The Albatross, TACITUS, Captain Moyne, will sail on SATURDAY next.

For light freight or passage apply to T. O. SAWKINS, Exchange.

FOR SAN FRANCISCO direct.

The fine new Al clipper ship CAIRNSMORE,

1000 tons register, Capt. John Finlayson, commander, being under charter, will have very quick steam.

Persons desirous of proceeding to the above port should take an early opportunity of inspecting this vessel's manifest, cabin accommodation, which is second to none in the world.

For passage or light freight apply to the Captain, or board; or to LEARMONT, DICKINSON, and CO., Charlotte-place.

FOR SAN FRANCISCO.

The fine new Al clipper ship DUNGRAL.

700 tons register, Capt. John Finlayson, commander, being under charter, will have very quick steam.

Persons desirous of proceeding to the above port should take an early opportunity of inspecting this vessel's manifest, cabin accommodation, which is second to none in the world.

For passage or light freight apply to the Captain, or board; or to LEARMONT, DICKINSON, and CO., Charlotte-place.

FOR FIJI direct, calling at FRIENDLY AND NAVIGATOR'S ISLANDS, arranged, the brig KESTREL.

TO MELBOURNE.—Alexandria, Saturday afternoon, fares.—Saloon, 5s; return, 2s. 6d. Steerage, 5s. 10d.

TO AUCKLAND.—Auckland, on or about Thursday, 7th July.

TO HUNTER RIVER.—Collaroy, to-morrow morning, fare.—Saloon, 5s; return, 2s. 6d. Friday night, at 11.

TO CLARENCE TOWN.—Collaroy, Saturday morning, at 7. Goods for Martin's Wharf, and Miller's Forest forwarded per Commissioners on Friday night.

TO BRISBANE.—Lady Young, Saturday afternoon, at 11.

TO MARYBOROUGH.—Lady Young, to-morrow afternoon, Thursday, at 4. (Delayed at the request of the Postmaster.)

TO ROCKHAMPTON, via Gladstone—Baldwin, this afternoon. Wednesday, at 4. (Delayed at the request of the Postmaster.)

TO BROAD SOUND and Pioneer River.—Baldwin will take cargo to be transhipped at Rockhampton per Thomas.

TO GOLDEN BAY, via Port Denison.—Boomerang, on or about Friday, 8th July.

FROM BRISBANE TO ROCKHAMPTON, calling at Maryborough and Gladstone.—Steamer weekly.

Cargo is now being received for transmission to any of the above ports.

NO CARGO received for the steamer going to Melbourne or Queensland after 3 p.m. on their day of sailing.

EDWARD H. TROUTON, Manager.

A. S. N. Co.'s Wharf, Queen-street.

H. H. BALL, U. S. Consul.

THE AUSTRALASIAN STEAM NAVIGATION COMPANY'S STEAMERS.

TO MELBOURNE.—Alexandria, Saturday afternoon, fares.—Saloon, 5s; return, 2s. 6d. Steerage, 5s. 10d.

TO AUCKLAND.—Auckland, on or about Thursday, 7th July.

TO CLARENCE TOWN.—Collaroy, Saturday morning, at 7. Goods for Martin's Wharf, and Miller's Forest forwarded per Commissioners on Friday night.

TO BRISBANE.—Lady Young, Saturday afternoon, at 11.

TO MARYBOROUGH.—Lady Young, to-morrow afternoon, Thursday, at 4. (Delayed at the request of the Postmaster.)

TO ROCKHAMPTON, via Gladstone—Baldwin, this afternoon. Wednesday, at 4. (Delayed at the request of the Postmaster.)

TO BROAD SOUND and Pioneer River.—Baldwin will take cargo to be transhipped at Rockhampton per Thomas.

TO GOLDEN BAY, via Port Denison.—Boomerang, on or about Friday, 8th July.

FROM BRISBANE TO ROCKHAMPTON, calling at Maryborough and Gladstone.—Steamer weekly.

Cargo is now being received for transmission to any of the above ports.

NO CARGO received for the steamer going to Melbourne or Queensland after 3 p.m. on their day of sailing.

EDWARD H. TROUTON, Manager.

A. S. N. Co.'s Wharf, Queen-street.

W. WILLIAMS, Secretary.

C. and N. E. N. Co.'s SHIPMANS SUSANNAH, for Grafton via Newcastle, on FRIDAY, at 8 p.m.

Officers—Commercial Wharf.

S. THOMAS TO NEW ZEALAND, calling at all Ports—The steamer TARAKUA will be dispatched from MELBOURNE on the 27th June, via Hobart.

Through tickets to and from all New Zealand ports to be obtained at our office.

For rates of passage, freight, and any information, apply to J. THOMAS and CO., 3, Bridge-street.

S. THOMAS TO MELBOURNE.—The steamship TARAKUA will be dispatched from MELBOURNE on the 27th June, via Hobart.

Through tickets to and from all New Zealand ports to be obtained at our office.

For rates of passage, freight, and any information, apply to J. THOMAS and CO., 3, Bridge-street.

S. THOMAS TO MELBOURNE.—REGULAR WEEKLY COMMUNICATION, by steamship, which will be dispatched on FRIDAY.

FRIDAY, June 24, at 4 p.m., from Struth's (A. S. N. Co.'s) Wharf with passengers and cargo. Freight at lowest current rates.

The return tickets, 2s 10d.

Return tickets available for two months.

The attention of second-class passengers is directed to the accommodation provided in the above vessels, with immediate dispatch. Has large and well-ventilated cabin accommodation.

Wool received at Struth's Stores.

Apply on board, at Circular Quay; or to MONTFORT, JOSEPH, and CO., June 7.

F. O. R. L. O. N. D. O. N. THE AGNES ROSE.

This favourite passenger ship will be dispatched on FRIDAY.

For freight or passage apply to board, to Captain FREDERIC GILCHRIST, WATT, and CO.

FOR SALE.—The cutter AGENORIA, owned by STEPHEN NUTTER, Caldonian Wharf, King-street.

FOR PRIVATE SALE, the schooner MARY SMITH. Apply to Captain WATSON, Patent Slip Wharf.

FOR SALE.—The ketch PEAKEN, Apply Blakes' Timber Yard.

FOR FREIGHT OR CARGO, the schooner NANAH BRENFIELD, Bonnecarré and Whitaker, Albion Wharf.

TO COASTERS AND OTHERS.—A good MAIN-SAIL FOR SALE, 25 feet long, 30 feet high; half-rigged. Apply to J. NICHOLS, on board the Perseverance, Pitt-street.

FOR SALE.—The clipper CELESTIA, 316 tons register, coppered and copper-fastened, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from Boston. Draft, deep-laden, 12 feet. Gums to 25 tons ballast, and sails with 9 heads all told.

FOR SALE.—The clipper GLOUCESTER, 300 tons register, built of white oak, iron hull, 100 ft. long, 340 tons gross cargo, from

EASTER MONDAY AT WESTMINSTER ABBEY.

(From the Times, April 18.)

The Abbey, yesterday, was one of the sights of London, and that in more senses than one, for the liberal-minded Dean and Chapter had given notice that Mondays were to be free, and from early morn until near sunset countless throngs passed through the portals of the noble pile. The Abbey was "free" in the fact that on other days fees are charged for viewing the historic art treasures enshrined within its walls, while on this day of the week, and for the first holiday time, the people were able to pass unquestioned over the building, except during the time of service, and were at liberty to linger where they liked to talk over different points of interest, and to take their own view of things without the intervention of a guide.

Yesterday was a severe test, it may be thought, for an experiment of allowing the crowd free entrance to the national monuments, it being the received view that if holiday crowds are rough, the Easter holiday makers exhibit the national character in its worse phase. It has, however, to be recorded that of all the crowds which thronged east, west, north, and south yesterday, those visiting the Abbey and its contents were not only unexceptional as regards orderly conduct; but for the main part they were reverent and thoroughly appreciative of the place and its associations. The people who attended were to a very great extent of the "working classes," in the truest sense of the term; and it was easy to see that there were present the artisan and labouring classes of nearly all grades, for all the workers are not in fustian—and they had come with all their households. There were, too, country tradesmen and country townsmen, a few "gentle people," a few farmers, and a tolerably good sprinkling of soldiers and sailors. It is, perhaps, worth while adding that there were none of a distinct class, to all experienced in London life as the skulking class—the "working men" who never work. The visitors came in family groups, consisting, in some instances, of three and four generations, for, in one group, a young mother was helping her "granny," who, on her own part, was informing her tender guide that the place was much the same as it was when she was a girl, a most remote period, judging from appearances. The people trooped so fast that it was impossible to count them, but not less than 8000 visited the chapels while some 4000 or 5000 must have wandered in at the north door and out at the west with an idea that they had seen all that was to be seen. From chapel to chapel they passed, at some periods at the rate of 60 in a minute, and this for a considerable time.

If any plea were needed for the removal of all difficulties in the way of a free intercourse with our history, "writ in stone," those crowds of yesterday would supply the plea in the general ignorance of throngs of English people concerning the place itself and its contents. The holiday people are not chary of giving information to their own class, and at any place of general and open resort, at the British Museum, or the Kensington establishment, an inquiry is soon answered from several in an on-looking group; but in the Abbey chapels, where parties, in the widest extent of the word, were looking at monuments, there were no unprofessional guides who could give *improper* information from actual experience. It must be stated that on many of the most noteworthy monuments and reliefs notices had been placed, evidently by the thoughtful Dean, whose name is so intimately associated with the Abbey; but the crowds hungered for more knowledge, a knowledge which acquaintance only can give. The visitors made the best use of their liberty, eyes, and knowledge, however limited the last may be, and groups were seen displaying all the enthusiasm of learned antiquarians in striving to decipher the words on some dusty monument. If the words were in the vulgar tongue all the on-lookers would hear the import, if not the people expressed themselves gratefully as in "luck's way" if the one in a hundred who did know happened to come that way in time to answer. One large family group had found a monastic breathing space in the recess in Henry VII.'s Chapel, where the Duke de Montpensier's monument, by Sir Richard Westmacott, stands. The inscription beneath, in Latin, puzzled the party, and a member of "My Bill" can read that, and the youth so named was speedily escorted thither from a lingering inspection on his own account somewhere else. One sight was sufficient to assure the lad that his powers were not equal to the occasion. This is one instance of many of the desire to know more of the Abbey. If, however, the monumental inscriptions were equal to a third-class town in India. We were delighted on presenting our letters of introduction, to find we were about to be accommodated with a bedroom, furnished in English fashion. After a thorough ablution, an unusual usage with us, but much needed, dinner was announced. A chair and a table were unaccustomed luxuries, so much so, that at first I felt quite awkward, and scarcely remembered how to use either of them; but all came round in the thorough enjoyment of a good dinner, which was excellent and beyond comparison. Upon recounting our journey to our host, he considered us very fortunate in having escaped the numerous bands of robbers which infest the mountain passes, and live by pillage and murder throughout the roads by which we made the journey; added to which there was the extra danger of meeting with the wild tribes of the surrounding country, which were in open rebellion against the Persian Government. These armed bands were also at war with each other, which at once told the tale of the numerous deserted and ruined villages which we had seen on our road. Next day we went to the country residence of an English gentleman, most pleasantly situated, about eight miles from the town, and at the foot of the mountains. Here most of the Europeans remain during the hot season, and nothing could exceed the kind hospitality of our host, which soon drove away all recollection of the hardships endured during weeks of hard riding.

Teheran occupies a high plain, about 4000 feet above the sea level; while the country retreat of our friend is still higher, about 6000 feet above the town. The Demovend mountain is a grand object to behold; it stands out before us, covered with snow, with its peak reaching a height of 20,000 feet. We found a large European community residing here, mostly in detached houses surrounded by gardens, in which apples, pears, plums, grapes, peaches, figs, strawberries, and all European fruits are grown to perfection. Large stone baths occupy a space in every garden, in one of which we proceeded to take the morning ablution; while an agreeable cup of tea was brought into the bath by the servant. The Shah has several palaces dotted about, which makes the place somewhat fashionable, although these are entirely wanting in Eastern grandeur, and have nothing of the air of an Indian residence, or the romance and enchantment of the "Arabian

as earnest a body of holiday makers as ever set out on a fine Easter to pass an interval of cessation from labour.

FENIAN MOVEMENTS—AN EXTENSIVE AND EXTRAORDINARY COMBINATION.

(From the New York Herald.)

The mysterious movements of the Fenians are beginning to attract a good deal of public curiosity and speculation. In the New Dominion her Britannic Majesty's provincials, from the Vermont border all the way back to the savage regions of the Red River of the North and Lake Winnipeg, are in a state of excitement over an apprehended invasion of Fenians from the United States, and the mustering, arming, and drilling of rangers, volunteers, regulars, and Indian mercenaries in Quebec, Montreal, Ottawa, and other places are the order of the day. The Dominion Parliament has suspended the habeas corpus and is actively equipping an expedition of ten thousand picked men and a force of two thousand Indians professedly for the suppression of the Red River insurgents, Riel and his confederates, but really to meet an expected raid of Fenians from Minnesota.

Yesterday was a severe test, it may be thought, for an experiment of allowing the crowd free entrance to the national monuments,

it being the received view that if holiday crowds are rough, the Easter holiday makers exhibit the national character in its worse phase. It has, however, to be recorded that of all the crowds which thronged east, west, north, and south yesterday, those visiting the Abbey and its contents were not only unexceptional as regards orderly conduct; but for the main part they were reverent and thoroughly appreciative of the place and its associations. The people who attended were to a very great extent of the "working classes," in the truest sense of the term; and it was easy to see that there were present the artisan and labouring classes of nearly all grades, for all the workers are not in fustian—and they had come with all their households. There were, too, country tradesmen and country townsmen, a few "gentle people," a few farmers, and a tolerably good sprinkling of soldiers and sailors. It is, perhaps, worth while adding that there were none of a distinct class, to all experienced in London life as the skulking class—the "working men" who never work. The visitors came in family groups, consisting, in some instances, of three and four generations, for, in one group, a young mother was helping her "granny," who, on her own part, was informing her tender guide that the place was much the same as it was when she was a girl, a most remote period, judging from appearances. The people trooped so fast that it was impossible to count them, but not less than 8000 visited the chapels while some 4000 or 5000 must have wandered in at the north door and out at the west with an idea that they had seen all that was to be seen. From chapel to chapel they passed, at some periods at the rate of 60 in a minute, and this for a considerable time.

If any plea were needed for the removal of all

difficulties in the way of a free intercourse with our history, "writ in stone," those crowds of yesterday would supply the plea in the general ignorance of throngs of English people concerning the place itself and its contents. The holiday people are not chary of giving information to their own class, and at any place of general and open resort, at the British Museum, or the Kensington establishment, an inquiry is soon answered from several in an on-looking group; but in the Abbey chapels, where parties, in the widest extent of the word, were looking at monuments, there were no unprofessional guides who could give *improper* information from actual experience. It must be stated that on many of the most noteworthy monuments and reliefs notices had been placed, evidently by the thoughtful Dean, whose name is so intimately associated with the Abbey; but the crowds hungered for more knowledge, a knowledge which acquaintance only can give. The visitors made the best use of their liberty, eyes, and knowledge, however limited the last may be, and groups were seen displaying all the enthusiasm of learned antiquarians in striving to decipher the words on some dusty monument. If the words were in the vulgar tongue all the on-lookers would hear the import, if not the people expressed themselves gratefully as in "luck's way" if the one in a hundred who did know happened to come that way in time to answer. One large family group had found a monastic breathing space in the recess in Henry VII.'s Chapel, where the Duke de Montpensier's monument, by Sir Richard Westmacott, stands. The inscription beneath, in Latin, puzzled the party, and a member of "My Bill" can read that, and the youth so named was speedily escorted thither from a lingering inspection on his own account somewhere else. One sight was sufficient to assure the lad that his powers were not equal to the occasion. This is one instance of many of the desire to know more of the Abbey. If, however, the monumental inscriptions were equal to a third-class town in India. We were delighted on presenting our letters of introduction, to find we were about to be accommodated with a bedroom, furnished in English fashion. After a thorough ablution, an unusual usage with us, but much needed, dinner was announced. A chair and a table were unaccustomed luxuries, so much so, that at first I felt quite awkward, and scarcely remembered how to use either of them; but all came round in the thorough enjoyment of a good dinner, which was excellent and beyond comparison. Upon recounting our journey to our host, he considered us very fortunate in having escaped the numerous bands of robbers which infest the mountain passes, and live by pillage and murder throughout the roads by which we made the journey; added to which there was the extra danger of meeting with the wild tribes of the surrounding country, which were in open rebellion against the Persian Government. These armed bands were also at war with each other, which at once told the tale of the numerous deserted and ruined villages which we had seen on our road. Next day we went to the country residence of an English gentleman, most pleasantly situated, about eight miles from the town, and at the foot of the mountains. Here most of the Europeans remain during the hot season, and nothing could exceed the kind hospitality of our host, which soon drove away all recollection of the hardships endured during weeks of hard riding.

This, or something like this, we conjecture, is the Fenian programme. Considered with a military eye, it abounds in difficulties and calculations of good luck; but still it may be the scheme resolved upon. In any event, in these combination movements of the Fenians in the British islands and in America against the British Government there is abundant matter for speculation, and, considering the excitement and active arming among the Canadians, we may safely conclude that "where there is so much smoke there must be some fire."

PERSIA.

(From the *Kronskirke* and *London Review*.)

In a few words the capital of Persia is hardly equal to a third-class town in India. We were delighted on presenting our letters of introduction, to find we were about to be accommodated with a bedroom, furnished in English fashion. After a thorough ablution, an unusual usage with us, but much needed, dinner was announced. A chair and a table were unaccustomed luxuries, so much so, that at first I felt quite awkward, and scarcely remembered how to use either of them; but all came round in the thorough enjoyment of a good dinner, which was excellent and beyond comparison. Upon recounting our journey to our host, he considered us very fortunate in having escaped the numerous bands of robbers which infest the mountain passes, and live by pillage and murder throughout the roads by which we made the journey; added to which there was the extra danger of meeting with the wild tribes of the surrounding country, which were in open rebellion against the Persian Government. These armed bands were also at war with each other, which at once told the tale of the numerous deserted and ruined villages which we had seen on our road. Next day we went to the country residence of an English gentleman, most pleasantly situated, about eight miles from the town, and at the foot of the mountains. Here most of the Europeans remain during the hot season, and nothing could exceed the kind hospitality of our host, which soon drove away all recollection of the hardships endured during weeks of hard riding.

Teheran occupies a high plain, about 4000 feet above the sea level; while the country retreat of our friend is still higher, about 6000 feet above the town. The Demovend mountain is a grand object to behold; it stands out before us, covered with snow, with its peak reaching a height of 20,000 feet. We found a large European community residing here, mostly in detached houses surrounded by gardens, in which apples, pears, plums, grapes, peaches, figs, strawberries, and all European fruits are grown to perfection. Large stone baths occupy a space in every garden, in one of which we proceeded to take the morning ablution; while an agreeable cup of tea was brought into the bath by the servant. The Shah has several palaces dotted about, which makes the place somewhat fashionable, although these are entirely wanting in Eastern grandeur, and have nothing of the air of an Indian residence, or the romance and enchantment of the "Arabian

Nights" about them. I visited one, and found it very insignificant, quite plainly painted, without decorations of any kind, except a few coarsely-executed paintings, which were hanging on the walls of some of the rooms. The beauty of the place consists solely in its shaded gardens and long avenues of magnificent palms, planted very close together. The next day I visited another of these palaces, six miles from where we were staying. It is a little better than the former; the trees and gardens seem to me to be the chief attraction. The Shah bestows his favours pretty equally upon Ministers of State and denizens of the harem. The bastinado for the refractory male or female is his favourite remedy. The feet are thrust out of a window, while the person is quite concealed from view; the officer of justice, standing outside, then inflict the prescribed dose. A certain number of canes, or sticks, must be broken over the feet, and, therefore, the man lays on with a will, and the feet of the fair offender or Minister of his High Mightiness must not be withdrawn until the full compliment has been administered. So much for the civilisation of the East and its despotic ruler, who, but for England, would soon become a vassal of Russia.

Nights" about them. I visited one, and found it very insignificant, quite plainly painted, without decorations of any kind, except a few coarsely-executed paintings, which were hanging on the walls of some of the rooms. The

THE SEVEN-TON MONCRIEFF GUN CARRIAGE.

(From the *Graphic*.)

This last invention in gunnery shows that it is not only by direct battering power that artillery lowers the ramparts of fortifications. In old days, when the beauties of "villainous saltpetre" were unknown to our fighting men, the strength of a fort lay to a considerable extent in the height of its walls, and all that has long been changed, and defences have been for some time mere matters of ditches and banks, that to the uneducated eye appeared, if distinguishable at all, but sorry impediments to a besieging host; and now it would appear that even the banks could be dispensed with, and that a mere ditch, of goodly proportions it is true, might serve the purpose. This result is due to Captain Moncrieff's utilisation of the recoil of the gun, so that the very act of firing lowers the piece within that ditch, or to use a more technical word, trench, out of sight of the opposing forces. Our engraving—a seven-inch seven-ton gun carriage—illustrates the principle by which this end is attained, so that what has hitherto been an obstruction is now an auxiliary in working the gun. The carriage, it will be observed, is totally different to anything before used, being in the form of a curve somewhat like the stand of a rocking-horse; the gun, when ready for firing, is elevated at one end of the carriage, the other end being weighted to keep it in that position; the recoil from the discharge, acting upon the curve, depresses the gun and elevates the weighted end of the carriage, in which position it is held while the operation of loading is performed, and when that is completed the weight once more raises the gun above the edge of the parapet or trench, the ascent being guided by one man who holds the break handle.

The manufacture of the Moncrieff carriage for the seven-inch seven-ton gun, now adopted

in the British service, has formed the principal work in the Royal Carriage Department at Woolwich Arsenal during the last year, but the manufacture of the larger ordnance—the nine-inch twelve-ton Moncrieff carriage—has not yet

been commenced. In appearance the latter is somewhat similar to the subject of our sketch,

but all the gearing is lower, and we understand

the inventor is further simplifying its construction.

It is intended to fire over a crest twelve

feet in height, and after the recoil the gun will

be six feet below its former position.

There are several other types of gun-carriage being

designed by Captain Moncrieff, at the Royal

Arsenal, for land service, some being for the

heaviest guns, others for seven-inch breech-

loaders, siege guns, &c., but the principle com-

mon to all is that of storing and utilising the

force of the recoil for bringing the gun from the

loading to the firing position.

Captain Moncrieff is also engaged at present,

in concert with the Works Department, in

designing new Moncrieff works for the improved

machinery which is being manufactured at

Woolwich, and also in designing adaptations of

the Moncrieff system to the existing works,

which will be all, more or less, modified to

obtain the advantages of this important inven-

tion, so that, for once, the Government has

shown itself in advance of the public in appre-

ciating what promises to be not only a revolu-

tion in artillery, but in fortification as well;

for people, it must be admitted, do not appear

to have realised the vast importance of the in-

vention, more especially in the matter of coast

defence. Where this is attained by the erection

of forts and batteries, the attacking ships have

some kind of mark at which to aim; there

are parapets to be battered, embrasures to be

knocked about, masonry to be dislodged, but

where there is nothing to be seen except the

natural undulations of the ground, with a

great gun popping up every now and then like

some monstrous fungus growth, sending forth

its iron bolt and vanishing before the smoke has

cleared away, it may try the most expert of

gunners to find anything which he can hit to

any purpose. Vertical fire would be his only

resource, and that is by no means so exact as

direct fire.

It would appear that the idea of bringing the

recoil to act the part of a dutiful servant, is not

absolutely new, as indeed what is?

—there is even an account of such an inven-

tion in the *Times* of 1808.

It is in the Tower a piece of medieval metal

The Mechanics' School of Arts.—Yesterday evening a lecture was delivered by Dr. Charles Taylor, at the Mechanics' School of Arts, on "The Mechanics of Genius." There was a tolerably numerous attendance. Mr. Robert Stewart presided, and introduced the lecturer. The lecturer opened his address by asking a comprehensive question concerning the nature of genius, in all its varied developments—alluding to the advancement so often thereby indirectly afforded by the significant circumstance that nearly all the greatest geniuses have been persons of early birth. He also mentioned a large number of geniuses born home by men who were undoubtedly of very humble parentage, but who, nevertheless, rose through the innate and irreducible force of genius. Amongst these persons the lecturer mentioned Edith Piaf, the singer, and the pianist, who had obtained the pleasure to enjoy the honoured name of Duke, the "Savoyard Baker of Thuro." It was also specially mentioned, as that of one who (in spite of all the difficulties and discouragements of poverty) had by his unceasing genius distinguished himself in the field of brilliant achievement, study, and devotion to science. By him, and by hundreds of others like him, exalted in poverty and want, and whose lives were spent in untiring toil, it was shown what imperishable memorials could be raised by genius, and what glorious monuments could be erected in their effort for mental improvement.

The History of the Printing Press was cited by Dr. Taylor as a striking memorial of genius, all due honour being given to its great inventor. The lecturer also alluded to the remarkable record of his native German countryman, Gutenberg, who invented the printing press, and the extraordinary capabilities of steam, as manifested by the immortal James Watt, was then alluded to, and the nature of that great man's discovery for utilising the power of steam was clearly and simply described. The lecturer, who in animated language, traced the progressive steps by which that genius discovered the secret of smelting brass, and had nobly struggled to the day of his death to secure even the recognition of his countrymen's discovery of chalcophyllite, and Simon's discovery of chalcopyrite were also mentioned as reflecting the noble honour upon men whose genius had made them the benefactors of the human race. The lecturer presented likewise a summary of the remarkable record of the late Murray Court-house on the 15th of May last, desirous to express his disapproval of the offensive language used by Mr. W. S. Caswell, P.M., in his capacity of chairman at that meeting, towards the Rev. J. J. Garvey, and his predecessor, Mr. G. Higinbotham, in reference to the meeting of the Roman Catholic community as a body. The Rev. Messrs. Puddephatt and Downson sought to conciliate the parties engaged in this movement, and urged that the meeting of the Roman Catholic body was intended. It was proposed as an amendment, "That this meeting desires to express its regret at the difference which exists between the Rev. J. J. Garvey and Mr. Caswell with regard to the expediency of instituting a local subscription in the name of the Society of Jesus." This gentleman also played Mozart's "Cuius Animam?" ("Stabat Mater"), grand (F. E. Burn), a fantasia, Rossini's "La Cittadella," and "L'Amico Fritz." The next part of the programme was allotted to Miss Thackeray, organist of St. Paul's Church, Maitland. This lady played the following selection:—Anton and Alfredo (Nixon), Coro and Orfeo (Fugue). The organist of the Methodist Church, Mr. G. Pack, concluded the proceedings by playing Mendelssohn's march from "Athalia."

Allied Public Insult to a Clergyman.—We learn from the "Daily News" that the public meeting held in the County Town, Moruya, to consider "what steps ought to be adopted in reference to the insult offered to the Catholic community" by Mr. W. S. Caswell, Police Magistrate, during the progress of a meeting of the Society of Jesus, held on the 15th of May last, was held over two weeks before from the Manning River, on which occasion the magistrate had made remarks calculated to offend the members of the Society.

Mr. Caswell, a local resident, had stated that

he made the fool was removed together with a quantity of rubbish from the Infirmary in a cart early on Monday morning by some Corporation labourers.

The Late Discovery of a Human Foot.—On

Monday evening last the police authorities on instituting inquiries with respect to the human foot found that mounting on a heap of rubbish at the Prince Alfred Park, came to the conclusion—that the foot had been amputated at the Sydney Infirmary by a surgeon from a patient named McCaffery, who arrived two weeks before from the Manning River, on which occasion the magistrate had made remarks calculated to offend the members of the Society.

It is to be observed that by mistake the foot was removed together with a quantity of rubbish from the Infirmary in a cart early on Monday morning by some Corporation labourers.

Alleged Public Insult to a Clergyman.—We learn from the "Daily News" that the public meeting held in the County Town, Moruya, to consider "what steps ought to be adopted in reference to the insult offered to the Catholic community" by Mr. W. S. Caswell, Police Magistrate, during the progress of a meeting of the Society of Jesus, held on the 15th of May last, was held over two weeks before from the Manning River, on which occasion the magistrate had made remarks calculated to offend the members of the Society.

The extraneous capabilities of steam, as manifested by the immortal James Watt, was then alluded to, and the nature of that great man's discovery for utilising the power of steam was clearly and simply described.

THE MURRAY WIN TRADE.

(From the *Ocean and Murray Advertiser*.)

One of the sights of Albany—encountering at much interest in its way as the explorer—on one of the banks of the river—is a large plain brick building, of comparatively recent erection, near the centre of the town. Externally there is little in this structure to attract the eye of the stranger. A long one-storyed building, with roof of corrugated iron, it has all the appearance of an ordinary warehouse for the storage of produce. But it is not in architectural pretensions or huge dimensions that the interest attached to the building centres. It is in the fact that within its walls are enormous quantities of the rich mineral wine of Murray, maturing for the markets of the world. The structure, at present, is 100 feet in length, by a width of 60 feet, is the property of Mr. J. T. Fallon, member for the Hume district in the Legislative Assembly of New South Wales, and is known far and near as "FALLON'S Cellar." On entering the cellar, the visitor is struck with the number of casks which are filled with generous liquid, that meets his view. There are casks to the right, casks to the left, casks in front, and casks behind, and all of monster dimensions. Five, standing in rows, will bear attention on account of their size. The tenor will be found to be equal to those, each having a capacity of 1,600 gallons, and occupying more space than do many dwelling-houses in the colonies. By the side of these monsters, casks containing 600 and 400 gallons—which of these there are now after filling—will be found.

THE MIDWINTER VACATION.

PARLOUR GAMES, PUZZLES, TOYS, &c.

We shall make a special exhibition of the most recently introduced Toys, Puzzles, and parlor games, THIS DAY; also a further shipment of

PORTRAIT ALBUMS.

The variety comprises presents suitable for children, also interesting and novel amusements for evening parties.

PHERIN'S FINE COTTON, VICTORIA HOUSE.

YOUNG GENTLEMEN'S CLOTHING.

DAVID JONES and COMPANY would invite the special attention of parents, guardians, and heads of families to their extensive department for

BOYS' AND YOUTH'S CLOTHING,

TO ALL CHILDREN FROM FOUR YEARS OLD.

YOUNG GENTLEMEN HOME FROM SCHOOL

to suit all sizes from four years old.

YOUNG GENTLEMEN'S WHOLESALE SHOP,

TRIMMING.—Largest assortment and lowest prices,

W. C. KEILN's, opposite Royal Hotel.

TAILORING, TAILORING G.

In consequence of the adjournment promised to the

M A R K E T C L O T H H A L L,

and Practical Tailoring Establishment,

48, George-street,

YOUNG GENTLEMEN HOME FROM SCHOOL

to suit all sizes from four years old.

YOUNG GENTLEMEN'S WHOLESALE SHOP,

TRIMMING.—Largest assortment and lowest prices,

W. C. KEILN's, opposite Royal Hotel.

The greater portion of the above have been made under their own supervision, and can be strongly recommended for superiority of workmanship and durability.

CHEAP GOODS!!! CHEAP GOODS!!!

RUSH and ROUSSEAU solicit the attention of their customers and the public generally to the following list of BAROMETS, purchased at auction considerably under the manufacturers' price.

Please observe the address—

618, Wilshire's buildings, Brickett Hill, George-street, Sydney.

THE CHEAPEST HOUSE IN SYDNEY.

Superior Linsey Woolsey Twed, only 2½ per yard

Plain Linsey, in every shade of colour, only 7½ per yard

A large assortment of new materials for ladies' and children's Winter Dresses, at 7½ per dress, worth

2½ to 6d.

Fine French Merino, all wool, only 9d per yard, worth

2s 6d.

Superior Indian Cashmere, in every shade of colour, very fine, only 2s 9d worth 4d—in drab, ruby, grey,

blue, yellow, orange, puce, and scarlet.

Ladies' Black Cloth Jackets, 6d 11d, very cheap.

AMUSEMENTS.

THEATRE ROYAL ADELPHI.

Lessons—Misses, Linda, Harding, Wilson, and Hobbs.

Under the direction of Miss BOSS COOPER.

Last Night! Last Night! Last Night!

TURN OF THE TIDE!

The most sensational drama ever produced in Sydney. Over 15,000 persons have already witnessed it.

In consequence of the novel scenes in action presented, this great drama must positively be withdrawn; and the author has reluctantly consented to witness one of the most stirring and artistic productions that has been introduced upon the colonial stage.

THIS EVENING, Wednesday, June 22nd, the curtain will rise to (for positively the last time) the

TURN OF THE TIDE!

in which Mr. and Mrs. Holloway, Mrs. Andrews, Harding, Welsh, &c., will appear.

The new and original play,

WILSON and HOBBS.

To conclude with the capital burlesque.

THE MUSICAL THE MAGPIE.

MISS FEARLESS, (from the Strand Theatre, London) will have the honour of making her fourth appearance in Sydney as PIPPO.

Supported by Messrs. Andrews, Welsh, Miss Curvy, Miss Morgan, &c.

TO-MORROW EVENING,

ARRAH NA POOGUE.

For the BENEFIT of Mr. W. ANDREWS.

Mr. ANDREWS and management have much pleasure in announcing that they will be here again on Saturday evening, June 25th, to present the celebrated artistes, Mr. H. ROBERTS and Miss POLLY LEAKE. The due notice will be given of their first appearance.

PIT, ONE SHILLING,

which has been enlarged, and is now capable of holding 1000 PERSONS.

THEATRE ROYAL ADELPHI.

THURSDAY, June 23.

BENEFIT of Mr. W. ANDREWS, on which occasion will be produced the great Irish drama,

ARRAH NA POOGUE.

A variety of entertainments, and the successful burlesque

MAID AND THE MAGPIE.

THEATRE ROYAL ADELPHI.

ADVANCE AUSTRALIA!

MONSTER ATRACTION.

ANNUAL BENEFIT in his nativity of the popular Australian Comedian,

MR. WILLIAM ANDREWS.

THURSDAY EVENING next, June 23rd, on which occasion he will appear in his unrivaled impersonation of

SHAWN THE POST,

in the great Irish drama,

ARRAH NA POOGUE,

or the WICKLOW WEDDING,

supported by the Royal Adelphi Star Company.

Mr. ANDREWS has much pleasure in announcing that he will be here again appearing before the following (not Crowned Heads of the Commonwealth of Australia)—His (colonial) Majesty King Hungar and Cossack, Queen Gloucester, Ricketts Dick

Say—General Tarras,

Captain Mullah, and

His Excellency the Ambassador from Garden Island.

A Grand MUSICAL and TRAPSCHUREAN INTERTHULE. Concluding with the glorious Burlesque of the

MAID AND THE MAGPIE.

Mr. ANDREWS is the best Shakespearean comedian in the colonies.—AUSTRALIA'S "MELBOURNE ARGUS."

"The Compton" of Australia.—MELBOURNE ARGUS.

"The best comedian we have had here"—HOBART Town Mercury.

"A rival in his profession"—LAWNTON

REVIEWER.

"The Post is one of Mr. Andrews's best performances."—SYDNEY MORNING HERALD.

THE SYDNEY MORNING HERALD, WEDNESDAY, JUNE 22, 1870.
